Notes

CLARIFICATION: ID surface inspection, in following long standing practice, for all tubes with an ID dimension < 1.9", supplied in lengths > 3', Alcoa will inspect only the ends of tubes (on sample plan basis) to the requirements agreed upon, applicable spec (excluding some spec where special requirements & inspection methods have been negotiated.) If the ID is surface qual critical, user may be required to perform additional inspection. Unless otherwise agreed in writing, Alcoa's standard replacement war. w/ limited liability (as set forth in Alcoa's terms & condition) applies to all tubes supplied hereunder.

CLARIFICATION: Products produced and marked to the requirements of AMS-WW-T-7006 also meet the requirements of WW-T-7006. Products produced and marked to the requirements of WW-T-7006 also meet the requirements of AMS-WW-T-7006.

Legal Statement

We hereby certify that, unless otherwise indicated, the material covered by this report has been manufactured, inspected, and tested in accordance with, and has been found to meet, the applicable requirements described herein, including any specifications forming a part of the description and that samples representative of the material met the composition and had the mechanical properties shown on the face of this certification. Also, note that mercury is not a normal contaminant in aluminum alloys and neither it nor any of its compounds are used in the manufacture of our product. This certification is not to be reproduced in partial form without prior written approval of our Quality Assurance Dept.
